

Beef Potential

MTD/1™

ECOSYL treated corn silage produces 6.3 lb more beef per ton ensiled

- based on inoculant trials at Kansas State (Bolsen) over 10 years (12 trials, 11 inoculants)

Summary of Bolsen's trials

	% Improvement over untreated	
	All inoculants (including Ecosyl)	Ecosyl alone
DM recovery	1.5	2.1
DM intake	0.9	2.7
Daily liveweight gain	2.7	7.4
Feed:Gain	1.4	4.4
Gain per ton ensiled*	3.4	7.5

\*Actual gain (lb/t): All inoculants 1.43; Ecosyl alone 7.72

ECOSYL resulted in 6.3 lb more beef per ton than the average of all of the inoculants studied, including Ecosyl

Tons Harvested	Beef Price						
	\$1.20	\$1.30	\$1.40	\$1.50	\$1.60	\$1.70	\$1.80
	Profit Potential						
500	\$3,780	\$4,095	\$4,410	\$4,725	\$5,040	\$5,335	\$5,670
1,000	\$7,560	\$8,190	\$8,820	\$9,450	\$10,080	\$10,710	\$11,340
