Dohrect Enject System

For Liquid Concentrate Application on Forage Harvesters.

U.S. Patent No. 6,443,369
Canada Patent No. 2,411,690

Dimensions: 23 1/4" L x 16 1/2" W x 23 1/4" H

DE-1008.5

The DE-1008.5 is designed exclusively for liquid concentrate application on forage harvesters. It stands out with its stainless steel baseplate and enclosure, featuring a hinged door to gain access to an updated pump and a quick-connect pumping tube – meaning no tools required for tube changes! The flush bottle is larger and is part of the pump enclosure. We have also improved the wire harness and electrical plug connection to the pump unit to make it a more secure, weather-tight connection. As with previous Dohrect Enject Systems, it has an open-end discharge (no nozzle or orifice to plug), an insulated tank (treating up 1000 tons per tank fill), and a secondary tank option (to have more on the go). A metric version is available. For ordering a metric version, please use part number: DE-1008.5M.

Features:

- Harvest Rates up to 8.5 Tons per Minute (510 Ton/Hour)
- Stainless Steel Baseplate and Enclosure
- Hinged Door Pump Access with 1/4" Turn Latches
- Low Application Rate
- Easy to Clean
- No Nozzle or Orifice to Plug
- Quick Connect Pump Tubing in 2 Different Sizes
- Quick Connect Hoses on Flush Bottle and Cooler Valve Assembly
- Larger 32 oz Flush Bottle
- Weather-tight Electrical Plug on Pump Box

Dohrect Enject System

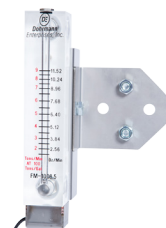

Included with the DE-1008.5:

SP-2L - Variable Rate Controller ***NEW for 2017***

Made exclusively for the Dohrect Enject Systems!

Contains an additional output to power the LED illumination of the FM-1008.5-LED Flowmeter!

FM-1008.5-LED Flowmeter ***NEW for 2017***

Illuminated for visibility during low light conditions. Provides indication of flow and flow rate. For metric, it is part number FM-1008.5M-LED.

Also Included:

- Stainless Steel Baseplate and Pump Enclosure
- Updated Quick Connect Pump Tubing (2 different sizes)
- 10 Gallon Insulated Cooler
- Power Cord
- Hose
- Flush Bottle
- Mixing Bottle

If you are looking to have more inoculant on the go, consider... DE-1008.5X2

The **DE-1008.5X2** includes everything in the DE-1008.5, but adds a second tank, baseplate, and manifold to applicator.

If you already have a DE-1008.5, but want to add the additional capacity, you can order the **X2-1008.5-KIT**, which includes the extra tank, baseplate and selection manifold.

KIT-PTFH-1008.5

DE-1008.5 Kit for Pull-Type Forage Harvesters

Includes:

- DE-1008.5 Applicator
- CM-2 Mounting Kit
